

Client Portal User Manual

A step-by-step guide to applying for and managing a PRDF business loan

Document	Client Portal User Manual
Version	1.2
Date	8 October 2026
Audience	Loan applicants, and PRDF staff supporting them
Web address	https://prdf-lms.vercel.app
Purpose	User guide and acceptance record

Every screenshot in this manual was captured from the working portal, not mocked up. Figures shown are from a test application and are illustrative.

1. About this manual

This manual shows you how to apply for a PRDF business loan and manage it once it is funded. It follows the screens in the order you will meet them, so you can read it straight through the first time and afterwards open it at whichever section you need.

Sections 2–4	Before you apply — what you need, checking that you qualify, and creating your account
Sections 5–9	The application itself — the five steps, your documents, and the declaration you sign
Sections 10–13	After you apply — tracking progress, and your loan account once funds are released
Section 14	What your loan costs, explained
Section 15	If something goes wrong
Section 16	Acceptance and sign-off

A note on the figures. The amounts in the screenshots come from a test application for R750 000 over 12 months. Your own figures will differ. Everything the portal quotes you before approval is *indicative* — Section 14 explains why, and what can change.

Who to contact

If you get stuck, email info@phahlaconsulting.co.za or call the service line on **010 035 2753**. If you have already been assigned a PRDF loan officer, contact them directly. Section 15 covers the problems people hit most often, and many can be solved without waiting for help.

2. Before you begin

Gather all ten documents before you start. You cannot submit your application until every one of them is uploaded, and stopping halfway to find a missing document is the most common reason applications are abandoned.

2.1 What you need

Document	What it must be
ID Document	Certified copy of the director's or applicant's identity document
Proof of Address	Recent proof of business or director address
Company Registration (CIPC)	Your CIPC company registration certificate
Tax Clearance	SARS tax clearance or tax compliance status document
Bank Statements	Three months of business bank statements (you may upload several files)
2 Years Annual Financial Statements and Management Accounts	Two years of annual financial statements, together with your latest management accounts
Vendor Quotations	Three quotations for what you are funding (several files allowed)
Central Supplier Database (CSD) Report	Your CSD registration report
Purchase Order / Short-Term Contract	The purchase order or contract itself, setting out all the conditions, and signed by both the issuer and you . Include its validity dates. Contracts may not exceed three years
Trade Reference	A reference from a business organisation or trade reference

File formats and size. Only **PDF, DOC and DOCX** files are accepted, and each file must be **5 MB or smaller**.

Photographs and scans saved as JPG or PNG will be refused. If you only have a paper copy, scan or photograph it and save it as a PDF before uploading — if the scan comes out larger than 5 MB, scan it again in black and white or at a lower resolution.

2.2 Also have ready

- Your CIPC registration number, in the form 2021/123456/07
- Your SARS tax pin
- Your average monthly revenue, years trading, and number of employees
- Your business's physical address
- Your contact details: a South African mobile number, an email address you can access, and an alternative contact number

2.3 Practical points

Browser. Any current version of Chrome, Edge, Safari or Firefox. The portal works on a phone, but uploading is far easier on a computer where your files already are.

Time. As a guide, allow around 10 minutes once every document on the checklist is to hand — it will take longer if you are still gathering them. This is an estimate, not a limit: you can save and come back at any point, so you do not have to finish in one sitting.

3. The PRDF website

Everything in this section works without an account. Start at <https://prdf-lms.vercel.app>.

3.1 The loan calculator

The calculator gives you an indicative price before you register anything. Drag the sliders, or click the figure and type directly into it.

- **How much do you need?** — R250 000 to R3 000 000
- **Over how many months?** — 1 to 36 months

It then shows your indicative monthly instalment, total repayment, and estimated interest.

These figures are indicative only. They are a guide to help you plan, not a quotation and not an offer of credit. Your actual rate is set after assessment, and your approved amount and term may differ from what you ask for. Section 14 explains what can change and why.

Figure 1 — The landing page. The calculator is on the right, with the rate disclosure deliberately placed above the figures.

Read the rate notice first. The figures are quoted at the cheapest rate we offer, because at this point we know nothing about your business. The notice above them says *Prime + up to 10.50%* — that is the ceiling. Your actual rate is set after we assess your application. This is not a credit approval or an offer.

Whatever you set on the calculator is carried through to your application, so you do not have to enter it twice.

3.2 Checking whether you qualify

Check Eligibility opens a checklist of PRDF's criteria, grouped into developmental impact, ownership and control, and registration and compliance. Tick each one your business meets. A counter at the bottom shows your progress.

PRDF

Sign In

Apply Now

CHECK YOUR ELIGIBILITY

Confirm that your business meets PRDF's eligibility criteria by checking each requirement below. All criteria must be met to proceed with a loan application.

DOCUMENTS YOU'LL NEED

Certified ID copy

CIPC registration

SA Revenue Service tax pin

ELIGIBILITY SELF-ASSESSMENT

CONFIRM YOUR ELIGIBILITY

Check each box to confirm your business meets the requirement. All criteria must be met.

DEVELOPMENTAL IMPACT

☐ Applicants who demonstrate expected Developmental Impact

☐ Projects must demonstrate targets for employment creation

☐ Applicants must be willing to participate in developmental programs

☐ Transactions from rural provinces must have rural community participation

☐ Projects must demonstrate sustainability

☐ The business must demonstrate capacity to repay the loan offered

OWNERSHIP & CONTROL

☐ Enterprises must be >50.1% black women owned

☐ Applicants must be 90% South African nationals with operations controlled by SA citizens

☐ Enterprises must be 100% Director Operational

☐ Applicants must be permanent residents of South Africa

REGISTRATION & COMPLIANCE

☐ The Enterprise(s) must be compliant with generally accepted corporate governance practices appropriate to the client's legal status

☐ The business must be registered with the CIPC

☐ The business must be registered with SARS as a taxpayer and in possession of a valid tax clearance certificate or a tax pin

☐ The members/shareholders of the business must not be unrehabilitated insolvents and not be under debt review or an administration order

Figure 2 — The eligibility self-check. The sidebar lists the documents you will need; the counter sits bottom left.

PRDF Client Portal — User Manual

Page 5 of 31

4. Eligibility outcomes and your account

4.1 The two outcomes

When you click **Check My Eligibility** you get one of two answers.

Figure 3 — If you ticked every criterion. This is a preliminary assessment only: final approval still depends on document verification, affordability and PRDF's own assessment.

Figure 4 — If you left any criterion unticked. You are shown what to fix and referred to Phahla Consulting for compliance and funding-readiness help. You can retake the check at any time.

This self-check is not recorded and is not sent to PRDF. It is there to save you time. You can also skip it entirely and apply directly.

4.2 Creating your account

Apply Now, or **Create Account & Apply** on the result page, opens registration. All five fields are required.

Field	Rule
First name	Cannot be blank
Last name	Cannot be blank
Phone number	A South African mobile number — 0 or +27 , then 6, 7 or 8, then 8 digits. Spaces and dashes are fine
Email address	Must be a valid address, and one you can access
Password	At least 8 characters

Create Account & Apply

Already registered? [Sign in](#)

Figure 5 — Registration. If you used the calculator, the loan you were pricing is shown on the left.

If anything is wrong, the message appears directly beneath that field and the cursor jumps to it. Clicking **Create Account & Apply** takes you straight into the application — there is no separate confirmation email to wait for.

Use an email address you can actually open. It is the address you sign in with, the only way to reset a forgotten password, and where PRDF writes to you about your application. An address belonging to someone else, or one you no longer have access to, will lock you out of your own account.

5. Signing in

The image shows a sign-in page for PRDF. On the left, a dark blue sidebar contains the PRDF logo, the text 'BUSINESS FINANCE, BUILT FOR GROWTH', a sub-headline 'Access the capital your business needs — quickly, transparently, and entirely online.', and a list of four benefits with checkmarks: 'Apply in under 10 minutes', 'NCR-compliant lending process', 'Dedicated loan officer support', and 'Funds disbursed within 48 hours'. The main white area on the right is titled 'WELCOME BACK' and says 'Sign in to continue your PRDF loan journey.' It features two input fields: 'Email address' with the placeholder 'you@business.co.za' and 'Password' with masked characters '*****'. Below these is a blue 'Sign In' button. At the bottom of the sign-in area, there are links for 'Forgot your password?' and 'New to PRDF? Create your account'.

Figure 6 — Sign in with the email address and password you registered with.

5.1 If you forget your password

You can reset it yourself, in four steps. You do not need to phone anyone.

Step 1 — Ask for a reset. On the sign-in page, type your email address into the **Email address** box first. Then click **Forgot your password?** underneath. If you click it before typing your address, the portal will ask you for it.

Figure 7 — Type your email address first, then click **Forgot your password?**

Step 2 — Check your email. The portal confirms that it has sent the email. Go to your inbox and open the message from PRDF, then click the link inside it. If it is not there after a minute or two, look in your spam or junk folder.

Figure 8 — The portal confirms the email is on its way.

Step 3 — Choose a new password. The link opens a page where you type a new password, then type it a second time to make sure the two match. It must be at least 8 characters. Click the button to save it.

SET A NEW PASSWORD

Choose a new password, then sign in with it to pick up where you left off.

- ✓ Use at least 8 characters
- ✓ Avoid a password you use elsewhere
- ✓ Signs you out everywhere, just in case

CHOOSE A NEW PASSWORD

Enter it twice so we can be sure it's typed the way you meant.

New password

At least 8 characters

Confirm new password

Re-enter your new password

Update Password

Remembered it after all? [Back to sign in](#)

Figure 9 — Enter your new password twice, then save it.

Step 4 — Sign in again. Use your email address and the new password.

The link only works once, and not for long. If you click it and it says it has expired, nothing has gone wrong — just go back to the sign-in page and ask for another one.

Changing your password signs you out everywhere. This is on purpose. If someone else knew your old password, they lose access the moment you change it. Sign in again with the new password on each device you use.

5.2 Staying signed in

You can close the tab, or close the browser altogether, and still be signed in when you come back. You will not lose a draft that way.

Two things will sign you out. Clicking **Logout** at the top right of any page, which is what to use on a shared or public computer. And occasionally a dropped internet connection, which returns you to the sign-in page — if that happens, sign in again. Nothing you have saved is lost either way.

5.3 Where you land

- **If you have never applied**, you go straight into the application form. Home and Status only open once you have an application to show.
- **If you have applied before** — including an unfinished draft — you land on Home.

5.4 Finding your way around

Menu item	What it is for
-----------	----------------

Home	Your dashboard: current application, key figures, recent activity
Applications	The five-step application form
Documents	Your document checklist and uploads
My Loans	Loans that have been paid out
Status	Progress tracking for every application

On a phone the menu collapses; the ☰ button at the top left opens it. The bell at the top right shows unread notifications.

6. Applying — Step 1: Business & Compliance Profile

The application has five steps, shown across the top. A panel on the right prices your loan as you go. You can leave at any point and come back — see Section 9.

HOW DO WE FUND YOU?
Purchase Order

TELL US MORE ABOUT HOW YOU'LL USE THE FUNDS (MINIMUM 50 WORDS)

We are funding a confirmed purchase order to supply forty tonnes of farmed abalone to an export buyer in Singapore. The money covers specialist feed for the grow-out period, grading and sorting labour at the packhouse, and cold-chain packaging for the shipment itself. We also need two refrigerated delivery vehicles to move the stock from our Gansbaai facility to the airport without breaking the cold chain, which is the single biggest risk to the order being accepted on arrival.

← Back Saving... Continue →

Indicative Debt Breakdown

Loan Amount	R 250 000
Term	6 months
Indicative Total Repayable	R 277 928,09
Interest (183 days)	R 19 428,09
Initiation Fee	R 1 000
Management Fee	R 7 500
Lending Rate	From 15.50% p.a.

[Edit loan details](#)

Figure 13 — Step 3. The panel on the right reprises every time you move a slider.

8.1 Amount and term

Control	Range
How much do you need?	R250 000 – R3 000 000
Over how many months?	1 – 36 months

If you go outside these limits the step is refused and the limit is quoted back to you.

8.2 What the funds are for

Field	Notes
How do we fund you?	Required. Choose the category that best fits — purchase order, transport, equipment, working capital, and so on
Tell us more about how you'll use the funds	Required, at least 50 words . A counter under the box shows how many you have written so far and turns green once you reach 50. Continue is refused until you do

Be specific here. An assessor reads this. *"Funding a confirmed purchase order to supply 40 tonnes of farmed abalone to an export buyer, covering feed, grading and cold-chain packaging"* tells them far more than *"expansion"*, and helps your application move faster.

9. Step 4: Documents, and saving your work

All ten documents are required. You cannot move on until each one has a file.

Figure 15 — After uploading. Each file shows with **View** and **Remove**. Bank Statements and Vendor Quotations also offer **Add another file**.

- **View** opens the stored file in a new tab.
- **Remove** deletes it and frees the slot.
- Only PDF, DOC and DOCX are accepted, and each file must be **5 MB or smaller** — see Section 2. The limit is also shown in a banner at the top of this step.

9.2 Saving and coming back later

Your work saves itself about a second and a half after you stop typing, and again each time you click Continue. The header tells you: **Saving...**, then **✓ All changes saved**.

You can also click **Save & finish later** on any step. To pick up where you left off, sign in and either use *Resume your draft* on Home or Status, or just click **Applications**.

One application at a time. You can only have one unfinished application open. Opening the form again resumes the one you have rather than starting a new one, so you cannot accidentally create two. **Discard draft** in the header deletes it and its files permanently.

10. Step 5: Review and submit

Check everything before you submit. After this point you cannot edit your application yourself.

Figure 16 — The review screen. Each document shows either its filename with a green tick, or **Missing** in red.

To change something, use ← **Back**, or **Edit loan details** on the right-hand panel to jump straight to Step 3. **Submit Application** stays greyed out until every document is present.

10.1 The declaration

Submit Application opens PRDF's consent declaration: twelve statements covering data privacy (POPIA), policy acknowledgements, and terms and conditions.

Figure 17 — The declaration. **Proceed** only becomes available once every statement is answered YES.

This is a legal declaration. Read it rather than clicking through. Among other things you confirm that your information is true and accurate, that you understand approval is not guaranteed, that if your application is unsuccessful PRDF will write to you with the reason and its recommendations, that you must insure any assets bought with the loan, and that repayment will be collected by debit order. You cannot proceed without agreeing to all twelve. Your answers are stored with your application.

10.2 What happens next

1. Your application is saved and your declaration attached.
2. Its status changes to **Submitted**.
3. You are taken to the Status page, where you can follow its progress.

11. Your dashboard and documents

11.1 Home

Figure 18 — Home. The card at the top is your current application, with a button for whatever needs doing next.

The card shows your most recent active application in plain language, and offers the obvious next step — resume your draft, upload requested documents, or view your approval. Below it are three figures: applications submitted, active loans, and amount outstanding. Recent activity lists your last five applications.

11.2 Documents

Figure 19 — The Documents page. Every document here has been checked and marked **Verified** by PRDF.

Use this page after you have submitted — most often because PRDF has asked for something more. The left panel is your checklist; the right panel uploads a file against whichever document you have selected.

Badge	What it means
Missing	Not uploaded yet
Uploaded	Received, not yet checked
Verified	Checked and accepted
Rejected	Not accepted — upload a corrected copy

To replace a document, click **Replace** beside it, drop the new file in, and click **Upload Document**.

12. Tracking your application

Status shows every application you have made, each with a progress timeline.

Figure 20 — The milestone timeline. Ticked milestones are done, the highlighted one is where you are now.

Milestone	What it means
Application Submitted	Received, and waiting to be assigned
Under Review	Being assessed, along with your documents
Approved	Your loan has been approved
Funds Disbursed	Money has been transferred to your business account
In Repayment	Your loan is active and being repaid
Loan Closed	Fully repaid

If the timeline looks empty, nothing is wrong. While your application is being assessed it passes through several internal stages that the timeline does not yet show, and it can appear as though no progress has been made. **Trust the status label at the top right of the card**, not the circles. This is known and is being fixed.

If we need more from you, the status changes to *Information Requested* and an **Action required** panel appears. Check your notifications for what is needed, then upload it on the Documents page. Your application waits until you do.

13. Your loan once it is funded

13.1 Repayment summary

Figure 21 — Once funds are released, a repayment summary appears beneath the timeline.

This shows your outstanding balance, your next instalment and when it is due, and the loan's status.

Figure	What it means
Status	Where the loan is — disbursed, in repayment, or closed
Outstanding	Capital still owed

Scheduled Due	The total of everything on your schedule — capital plus interest
Principal	The amount advanced to you
Term & Rate	Your months and your actual annual interest rate
Paid	Total received from you so far

Repayments are collected by debit order, as you agreed in your declaration. You cannot pay through the portal. Keep the account funded ahead of each due date. If you have paid but it is not showing yet, allow for bank clearing before querying it.

14. What your loan costs

There are three charges, plus a penalty if you pay late.

Charge	How it works	When
Interest	Calculated daily on the full amount you borrowed	Over the term
Initiation fee	A flat R1 000	Once-off
Management fee	3% of the amount you borrow	Once-off
Penalty	Only if you pay late — see 14.3	Only when late

14.1 Your interest rate

Your annual rate is the **Prime lending rate plus a margin based on your risk grade**, which PRDF sets after assessing your application. Prime is currently 10.5%.

Risk grade	Margin	Annual rate
Low	5.0%	15.5%
Moderate	6.5%	17.0%
High	8.5%	19.0%
Worst	10.5%	21.0%

The portal quotes you at the cheapest grade before assessment, which is why it says *From 15.50% p.a.* Your actual rate can only be the same or higher, and appears on your loan account once your loan is booked.

14.2 How you repay

One payment at the end of the term. Interest builds up daily on the full amount you borrowed and is settled together with the capital on your maturity date. Your schedule therefore shows a single instalment rather than monthly ones. The fees are deducted from the money advanced to you, so you receive your loan amount less the initiation and management fees.

For example: borrow R750 000 over 12 months at 17%, and you would receive **R726 500** (R750 000 less R23 500 in fees) and repay **R877 500** at maturity (R750 000 capital plus R127 500 interest).

14.3 Paying late

There is **no grace period**. A penalty starts accruing the first day you are late, calculated on your capital plus interest at 2% per 30 days. It is worked out in a straight line and never charged on top of earlier penalties.

14.4 Before approval, nothing is final

Everything the portal shows you before approval is indicative. Your final rate follows assessment; your final amount and term may differ from what you asked for; and approval depends on document verification, affordability and PRDF's assessment.

15. Troubleshooting

What you see	What to do
"Only .pdf, .doc, .docx files are accepted"	Your file is a photo or image. Save it as a PDF and upload again
Submit Application is greyed out	A document is still missing. Check the Documents panel on the review screen for Missing
Continue does nothing	Something on the step is invalid. Look for red text — the cursor jumps to the first problem
"Add a few details before saving"	There is nothing to save yet. Fill in a field or two first
Your draft did not save	Check your internet connection, edit any field to start another save, and wait for ✓ All changes saved
Home and Status will not open	Expected if you have not applied yet. They open once you have an application
The password reset link does not work	Links expire and work only once. Request a new one from the sign-in page (Section 5.1)
"Could not load your profile"	Refresh the page. If it persists, sign out and back in
Pages load but tables are empty	A connection problem. Use Retry on the panel
Your amount or term is rejected	It is outside R250 000–R3 000 000 or 1–36 months
You cannot start a second application	You already have an unfinished one. Finish or discard it first
A document shows Rejected	It was not accepted. Upload a corrected copy from the Documents page
You were signed out unexpectedly	Your session expired. Sign in again — your saved work is safe
The progress timeline looks empty	Known display issue. Trust the status label on the card (Section 12)

Frequently Asked Questions (FAQ)

- **Can I change my application after submitting?** No. Contact your loan officer — and for purchase-order applications, subject to submission of all required documents.
- **How long does a decision take?** The site indicates five working days, depending on assessment.
- **Is the quoted figure what I will pay?** No — it is indicative until approval. See Section 14.
- **Can I apply for more than one loan?** One application at a time. Others appear in your Status list.
- **How do I pay?** By debit order — not through the portal. For purchase-order funding, PRDF pays the supplier directly and the amount is raised against your loan account.
- **Is my information safe?** Your documents are stored privately and opened only through short-lived secure links. How we handle your data is set out in the POPIA consent you signed.

16. Acceptance and sign-off

This section records PRDF's acceptance of the Client Portal as delivered and documented in this manual.

16.1 Acceptance checklist

Each item can be verified in the live portal by following the section named.

✓	Item	Section
☐	The public site loads and the calculator prices a loan without signing in	3.1
☐	The eligibility self-check returns both outcomes correctly	4.1
☐	A new account can be registered and signed into	4.2, 5
☐	All five application steps accept valid input and reject invalid input clearly	6–10
☐	A draft saves, survives signing out, and resumes where it was left	9.2
☐	All ten document types upload, and can be viewed and removed	9.1
☐	The declaration requires all twelve answers before it will proceed	10.1
☐	An application submits and appears on the Status timeline	10.2
☐	Status changes made by staff appear in the portal	12
☐	A funded loan shows its account, schedule and repayment history	13
☐	Loans are booked at the assessed risk grade, with fees recorded	14
☐	The portal is usable on a mobile phone	5.4
☐	A forgotten password can be reset end to end from the sign-in page	5.1
☐	The display point noted in Section 12 has been read and accepted	12

16.2 Declaration

By signing below, PRDF confirms that:

1. The Client Portal described in this manual has been delivered and demonstrated.
2. The acceptance criteria in 16.1 have been verified.
3. The points disclosed in this manual have been read and accepted.
4. This manual constitutes the user documentation for the Client Portal.
5. The work is complete and accepted.
